

Enrichment program

Department of Conservative Dentistry and Endodontics

Topic – Smile design and Composites

Date : 26-02-2024

The program began with a welcome speech from Dr Pavan and Dr Shilpa, followed by an invocation song by Varshitha, a 3rd-year student. Later, Dr Ajay Reginald, Principal, and Dr Lavanya, Head of the Department, addressed the attendees.

Dr. ArunSuraj was the guest speaker for the program, delivering an exhaustive lecture from 10 am to 1 pm. The lectures focused on Smile design and composite restorations, including veneer and Class IV build-up. The Smile design lecture was tailored specifically for the benefit of the interns.

After the lunch break, a live demonstration was held for Composite veneering, along with the use of Palodent, the sectional matrix system. This was followed by a hands-on session for all the Conservative PGs and 5 interns, where everyone could do a veneer build-up followed by finishing and polishing of the restoration. Every student was monitored and individually mentored.

The program ended with a vote of thanks by Dr Uma Maheshwari, a 1st-year Postgraduate, and the speaker was given a Memento. All the participants were awarded a certificate from the company. The program was funded by Dentsply, and PGs were introduced to all the new materials.

The total number of students who attended the lecture and demonstration was 85. 15 PGs, staff, and 5 interns attended the hands-on session.

Welcoming the Guest speaker
